

# burst kids™

Sonic Toothbrush

Finally, a brush  
designed for kids!

## Two magical modes to choose from

Every day is different — which is why you can choose the mode that's right for you each time you brush!

### Standard ●

Tough on plaque, gentle on gums, this mode blasts bad bacteria and other nasties with ease.

### Sensitive ○

Teeth and gums feeling sensitive? This mode is right for you!

### Charging +

You won't see this + sign lit up very often, since a single charge can last up to four weeks! When it does light up, simply plug it in — the light will go off when it's fully charged.

## What's in the box?

### Brush head

1

The super soft charcoal-black bristles help remove yucky stuff from your teeth.

### Sonic toothbrush

2

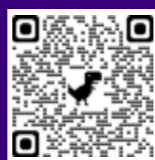

Oh-so comfortable to hold, your new sonic toothbrush packs up to 31,000 vibrations every minute; that's a lot of plaque-fighting power!

### Charger + base

3

Your brush has a home where it can stay dry and ready for action when you're not using it.

Want to learn how to brush properly? Scan here.

## How to switch brushing modes

Switching between modes is super easy! We'll show you how:

Press  once to turn the brush on.

Press  twice to change modes.

Press  a third time to turn the brush off.

**Wizards have  
wands, fairies have  
magic dust, knights  
have swords, and you  
have your new sonic  
toothbrush —  
a powerful tool to  
help you on your oral  
care adventure!**
