The New Rules

Gone are the days when houseware basics were the only registry items—but vast options (honeymoon fund included) can be daunting. Our style director, Naomi deMañana, offers guidelines to help frame your wish list: Choose items from four categories, and fill your home in a savvy and sweet way.

Useful Tools

Set yourself up for small victories with gadgets that are equal parts form and function. The kitchen is a natural place to start: Sleek, sharp knives; a quality cast-iron pan; and a multipurpose toaster each hold the potential to make fast work of mealtime. Scope out the latest tech for other parts of your day-to-day life, too—little pleasures like a sophisticated toothbrush or a petite and powerful portable speaker will carry their weight.
